

## SUSTAINABLE PROCUREMENT POLICY STATEMENT

It is the policy of Realm to identify and manage the environmental, social and economic impacts within our supply chain.

We are committed to:

- Setting objectives and action plans in support of this policy, and pursuing continuous improvement of our practices
- Prioritising suppliers who have embedded safe, sustainable and ethical practices within their organisation and who demand similar standards within their own supply chain
- Complying with statutory legislation and good working practice

Through the development of a supplier procurement strategy and engagement with Clients and stakeholders, we will look to use suppliers that actively:

- Put in place procedures and take positive steps to mitigate risk and carry out their activities in a safe and risk averse manner
- Reduce their environmental footprint through optimal use of resources, including energy, water and materials
- Seek to minimise waste both within their operations and through reduction of packaging
- Reduce the impact of deliveries and maximise local sourcing as far as reasonably practical

In adopting a Sustainable Procurement Policy we will help deliver benefits to society through:

- Complying with recognised standards and principles in respect of human rights and conditions of employment
- Ensuring that slavery and human trafficking is not taking place in any of our supply chains and in any part of our business

We will help drive economic growth through:

- Supporting job creation and facilitating opportunities for businesses who operate in the communities served by our shopping centres.
- Considering the life-cycle cost of products and services we consume
- Collaborating with our Clients that the Real Living Wage (at a minimum) be paid to employees and contractors engaged to provide a service or working on their assets

This policy will be communicated throughout the Realm business and will be available to the wider public on our website. In conjunction with our Clients' procurement policies It will be reviewed on a regular basis to ensure it retains relevance in the context of our business activities. We will also monitor compliance and seek to identify opportunities to deliver continual improvement.

D Mason – Managing Director
